SUMMARY

Results-oriented software engineer and professional with **12+** years' experience in design, development (**Mobile, Web, Desktop**), optimizing, maintenance, testing and evaluation of the software and system. I make it my goal to create software with the user in mind, creating applications with a useable and intuitive user interface experience. I am constantly striving to learn new technologies and look to ways to better myself in this rapidly changing industry.

I enjoy all the challenges this industry offers; delivery, leadership, technology, customer satisfaction, innovation and on-going learning. Each Project is different.
